

Medley

Barovier&Toso
2007

Una miscela di forme e lavorazioni diverse, unite da un cavo di acciaio che scende dalla plafoniera cromata dove sono incassati i faretto alogeni (da quattro a nove). L'elemento centrale è sempre colorato, circondato da identici elementi trasparenti oppure grigi. Sei modelli diversi per dimensioni del supporto e altezza degli elementi.

A mixture of different forms and crafting styles, joined together by a steel cable that descends from the chromed ceiling fixture where the halogen downlighters (from four to nine) are boxed in. The central element is always coloured, surrounded by identical transparent or grey elements. There are six models, differing in the dimensions of the supports and heights of the elements.
