

# Luxor

Daniela Puppa  
2007

Un lampadario dalla struttura classica, ma senza le consuete candele portalampada: i bracci di vetro "pieno", illuminati dal basso, sono incolori e trasparenti e possono essere 12, 16 o 20, di dimensione e forma diverse, combinati a dar vita a sette modelli, in un gioco di riflessi e sinuosità. Le parti metalliche sono cromate.

A chandelier with a classic structure, but without the usual lampholder candles: the "solid" glass arms, lit from below, are colourless and transparent and can be 12, 16 or 20 in number, with various dimensions and forms, combined to give rise to seven models, in an interplay of reflections and winding shapes. The metal parts are chromed.
