

SERRALUNGA

Design: Rodolfo Dordoni - 2008

SEVRES

The special feature of these new vases by Rodolfo Dordoni for Serralunga, with their minimalist shape, is that they are made in two different materials.

The coupling of polyethylene with a second material used for the upper edge makes this a unique product. Once again proves itself to be Serralunga a trend leader in the world of vases, with its important technological and conceptual innovation.

Material: polyethylene and aluminium
Dimensions "Sevres": maximum external diameter 48.5 cm - height 55 cm
Dimensions "Sevres High": maximum external diameter 42.5 cm - height 100 cm
