MISSED TREE

The "Missed Tree" vase collection has a new, smaller element. The whole family is also presented in a new bi-coloured, lacquered finish that "divides" the vase into two portions. The shape of Missed Tree I and II, redolent of the elements of nature, is combined with a more technical aspect: the steel base.

This contrast gives rise to an object that we might define as "techno-ethnic", that brings to mind the forms of the plant world without ever breaking off completely from the technological world.

The two versions, one formed of a single body (Missed Tree I) and the other with a branching element (Missed Tree II) offer the potential for endless combinations.

Material: polyethylene; white, black and red lacquered base in brushed steel

Dimensions: Missed-tree I: height 159 cm, steel base 42 x 42 cm
Missed-tree II: height 200 cm, width 75 cm
Missed-tree III: depth 47 cm, width 41 cm, height 57 cm
